2. The honor and responsibility of hosting each edition of the Junior Games are entrusted by Panam Sports to a City in the Americas which is elected to be the Host City by the Executive Board, unless the Executive Board determines a different process for the election, which must be carried out at least three (3) years before the celebration of the Junior Games.

3. The Executive Board determines the procedure to be followed leading up to the election of a Host City and in that regard may appoint an Evaluation Commission to evaluate the Bids and Candidate Cities and provide advice to the Executive Board with regard to their respective strengths and weaknesses.

4. The dates and duration of the Junior Games are determined by the Executive Board.

5. The Opening and Closing Ceremonies of the Junior Games must take place in the Host City, unless the Executive Board determines otherwise.

6. Unless the Executive Board authorizes the organization of an event outside of the Host City, all sport competitions must take place in the Host City.

7. The location, sites and venues of any sport or other event of any kind must be approved by the Executive Board. Any change to the location, site or venue of a sport or other event from that which was presented in the candidature must be prior approved by the Executive Board before any action may be taken.

8. The Host National Olympic Committee (NOC) shall ensure that an Organizing Committee is established to the satisfaction of Panam Sports, which shall be legally constituted in accordance with the laws of its country. The Organizing Committee shall be established as an independent legal entity under the laws of the Host Country, in such a way as to provide the greatest benefit and efficiency with respect to its operations and its rights and obligations, including a tax structure that allows the Organizing Committee to deal favorably with tax issues at the national and international levels. The National Government and the NOC shall consult with Panam Sports on all matters relating to the structuring and formation of the Organizing Committee. The executive body of the Organizing Committee shall take into account the various local factors that may contribute to the success of the Junior Games and shall include representatives of the Host City, the President of the NOC, and at least one additional person appointed by the President of the NOC, as well as an athlete who has competed in a recent edition of the Junior Pan American Games, Pan American Games, or Olympic Games. As a rule, the President of the National Olympic Committee shall not be the President of the Organizing Committee. From the time it is constituted, the Organizing Committee reports directly to the Executive Board, and from the time it is constituted until it is liquidated and dissolved, the Organizing Committee shall conduct all its activities in accordance with the Panam Sports Constitution and Regulations of the Junior Pan American Games, the Host City Contract, any other Panam Sports regulations, and instructions from the Executive Board.

10. The Organizing Committee shall plan, organize, finance, promote and stage the Junior Games. The Organizing Committee's Headquarters shall be located in the Host City.

11. The Host NOC, the Organizing Committee, and the Host City are jointly and severally liable for all commitments entered into individually or collectively concerning the organization and staging of the Junior Games, excluding the financial responsibility for the organization and staging of such Junior Games, which shall be entirely assumed jointly and severally by the Host City, such other government body as may be provided in the Host City Contract, and the Organizing Committee, without prejudice to any liability of any other party, particularly as may result from any guarantee given to Panam Sports.

12. In the event of noncompliance with the Constitution, or the Regulations of the Junior Games, or instructions of the Executive Board, or a breach of the obligations entered into by the Host NOC, the Organizing Committee, or the Host City, Panam Sports is entitled to withdraw, at any time and with immediate effect, by decision of the Executive Board, the organization of the Junior Games from the Host City, the Organizing Committee, and the Host NOC,

without prejudice to compensation for any damage thereby caused to Panam Sports. In such a case, the NOC, the Organizing Committee, the country of the Host City and all of the governmental and other authorities of the country, and any other party, whether at the local, state, provincial, other regional or national level, shall have no claim for any form of compensation against Panam Sports, without prejudice to any claim Panam Sports may have against any one or more of them.

SECTION III: SPORTS PROGRAM

1. The sports program of the Junior Games shall be decided on by the Executive Board in accordance with this Section III of the Regulations, considering the existing infrastructure at the Host City for the development of the sport competitions, as well as maintaining costs at a reasonable level.

2. The sports program of the Junior Games shall include a maximum of 30 summer sports and 4,500 athletes. The sports shall be determined by the Executive Board as follows:

2.1 The Executive Board has determined 26 priority sports that may be considered for the sports program, which are defined in Annex 1.

2.2 Not less than thirty (30) months before the opening date (date of the Opening Ceremony) of the Junior Pan American Games, the Executive Board shall inform the NOCs and the Organizing Committee in writing if there are any variations in the 26 priority sports.

2.3 At least twenty-four (24) months before the opening of the Junior Games, the Executive Board will determine a maximum of 4 additional sports to be incorporated into the program as follows:

- **Up to two sports** shall be directly selected by the Executive Board, prioritizing those essential for the development of sport in the Americas.

- **Up to two sports** shall be proposed by the Organizing Committee of the Junior Games, considering the importance of the sport in the host country, its development status in the Americas and the contribution and legacy that its inclusion might bring to the development plans of the continent. The Executive Board must approve the proposed sports for these to be included in the sports program of the Junior Games.

- Should any of the four sports not comply with the requirements set forth in these Regulations, the Executive Board reserves the right to accept or reject such proposal.

- If the total quota of 30 selected sports is less than 4,500 athletes, the Executive Board may approve a larger number of sports until said quota is reached.

3. The Executive Board shall consider the following factors for the sports program:

3.1 For a sport to be eligible to be part of the program, its International Federation must first be recognized by the International Olympic Committee, by Panam Sports and subsequently ratified by its General Assembly.

3.2 The sports and disciplines included in the program of the next Pan American Games that will be held two years after the Junior Games, with direct qualification for the next edition of the Pan American Games being mandatory for the gold medal winners, if their sport is part of said program.

3.3 The sports and disciplines whose Pan American Confederation and/or International Federation have achieved an adequate development of their activities in the Americas and that have achieved greater participation and popularity in the continent.

3.4 Those sports in which both men and women participate.

4. In addition to the considerations referred to above, the Executive Board shall consider all of the requests presented by the Pan American Sports Confederations and/or International Federations for inclusion of their respective sports on the sports program of the Junior Games at least thirty (30) months before said Games, taking into account, without limitation, the significance of the sport in the host country, the stage of development of the sport in the Americas, and the contribution and legacy, if any, that inclusion of the sport would make to Panam Sports' development plans. The requirements provided in these regulations must be fulfilled thirty (30) months before the opening of the Junior Games.

5. The decision of the Executive Board with regard to the inclusion of the four (4) additional sports, and which of their disciplines are to be included, shall be announced to the Members of Panam Sports once the decision is made.

6. The procedure established in these Regulations shall be applied for each edition of the Junior Games. The inclusion of the four (4) additional sports on the sports program of a Junior Games does not imply any priority or precedence with respect to inclusion on any subsequent sports program of a Junior Games.

7. The Executive Board may include invited sports and disciplines during the Junior Games, in coordination with the Organizing Committee. These events are subject to the fulfillment of the conditions determined by the Executive Board and would be additional to the maximum number of 30 sports in the sports program. These events shall not be considered in the official medal count of the Junior Games.

8. Under exceptional circumstances, the Executive Board may decide to modify the procedure and period to approve the sports program of the Junior Games.

SECTION IV: TECHNICAL ASPECTS

1. The Organizing Committee shall respect the technical standards of each sport, including the provision of adequate and properly equipped competition and training facilities commensurate with those of Pan American level and for the number of athletes expected to participate in the Junior Games, as proposed by the International Federation and the relevant Pan American Sports Confederation and to be approved by Panam Sports.

2. The qualification period must not be longer than two years before the Junior Games. Under exceptional circumstances the Executive Board may modify this period. The qualification systems for the Junior Games shall be proposed by the Pan American Sports Confederations.

These systems must be approved and circulated by Panam Sports to all the National Olympic Committees at least 18 (eighteen) months before the Junior Games.

3. The Organizing Committee shall publish a Technical Manual for each sport with the general rules of the Junior Games, the competition program of each sport, its test events and specific technical regulations. The definitive decision regarding the calendar and schedule of the events will be made by Panam Sports.

5. At least eighteen (18) months prior to the beginning of the Junior Games, the maximum number of entries per sport approved by Panam Sports shall be communicated to the Organizing Committee, the Members of Panam Sports, the Pan American Sports Confederations and/or the International Federations each of whom shall rigorously respect the maximum number of entries approved per sport.

6. Before the official arrival date of the NOCs' delegations, the Organizing Committee must organize and hold competitions of as many sports and disciplines in the sports program as possible to test the venues that will be used during the Junior Games as well as their operations, giving priority to the sports that will be held in new venues or the sports in which the host city has less organizational experience. The Organizing Committee shall submit the proposed Test Events calendar for approval no later than two years before the Junior Games. The Organizing Committee may propose that a test event be a qualification event for the Junior Games, subject to approval of the respective Pan American Confederation and of Panam Sports.

These Meetings will be presided, jointly, by a representative of the Panam Sports Technical Commission, the official appointed by the Pan American Sport Confederation and/or International Federation and a representative from the Organizing Committee.
